

# Ilima Intermediate

**Hydroponics Project SY21-22**  
**Research, System Design and Community Impact**  
Pacing and Outline Quarter 2 : Randall Shinn  
for STEAM Entrepreneurship and Research Network- GEER Grant

v.2021

# Schedule for Quarter 2

| Target Date                 | Project Phase                 | Target Activity   |
|-----------------------------|-------------------------------|---|
| Week 1 Oct 20-22            | Phase 1: Introductions        | <ul style="list-style-type: none"> <li>• Introduction Video to Clients</li> </ul> |
| Week 2 Oct 26-29            | Phase 2: EMPATHY and ASK STEP | <ul style="list-style-type: none"> <li>• REFER TO LINK TO THE RIGHT</li> </ul>    |
| Week 3 Nov 2-5              | Phase 3: IMAGINE STEP         | <ul style="list-style-type: none"> <li>• REFER TO LINK TO THE RIGHT</li> </ul>    |
| Week 4 Nov 9-12             | Phase 4: PLAN STEP            | <ul style="list-style-type: none"> <li>• REFER TO LINK TO THE RIGHT</li> </ul>    |
| Week 5-6 Nov 16-24          | Phase 5: CREATE STEP          | <ul style="list-style-type: none"> <li>• REFER TO LINK TO THE RIGHT</li> </ul>    |
| Week 7-8<br>Nov 30 - Dec 17 | Phase 6: IMPROVE STEP         | <ul style="list-style-type: none"> <li>• REFER TO LINK TO THE RIGHT</li> </ul>    |

# Hydroponic Data Record Sheet

2021.10.11

Hydroponics Data

Record Sheet

# PHASE 2: ASK STEP Oct 26-29, 2021

|   | <b>Student Name</b> | <b>Student Name</b> | <b>Student Name</b> |
|---|---------------------|---------------------|---------------------|
| <b>Kaimiloa Elementary School "Mr. Agatrap"</b> | <b>Student 1</b>    | <b>Student 2</b>    | <b>Student 3</b>    |
| <b>Kaimiloa Elementary School "Mrs. Kawelo"</b> | <b>Student 4</b>    | <b>Student 5</b>    | <b>Student 6</b>    |
| <b>Ilima Intermediate School "Ms. Arakawa"</b>  | <b>Student 7</b>    | <b>Student 8</b>    | <b>Student 9</b>    |
| <b>Ilima Intermediate School "Ms. Piecuch"</b>  | <b>Student 10</b>   | <b>Student 11</b>   |                     |
| <b>James Campbell High School "Ms. Watari"</b>  | <b>Student 12</b>   | <b>Student 13</b>   | <b>Student 14</b>   |
| <b>Ilima Care Home</b>                          | <b>Student 15</b>   | <b>Student 16</b>   | <b>Student 17</b>   |

# Client Interview

“Build relationship with client to care what client thinks”

Mr. Agatrap -  
Teacher

Mrs. Kawelo -  
Teacher

Ms. Arakawa - Science  
Teacher

**Option 1:**  
Tabletop  
Hydroponics

Ms. Piecuch -  
Cooking

**Option 2:**  
Mobile Cart (Blue  
Rubbermaid-Style): Mobile  
because it has locking wheels  
but not as transportable

# Client Interview

“Build relationship with client to care what client thinks”

**Ms. Watari**  
(NR Core, Biotech /Productions teacher - Ag. Teacher)

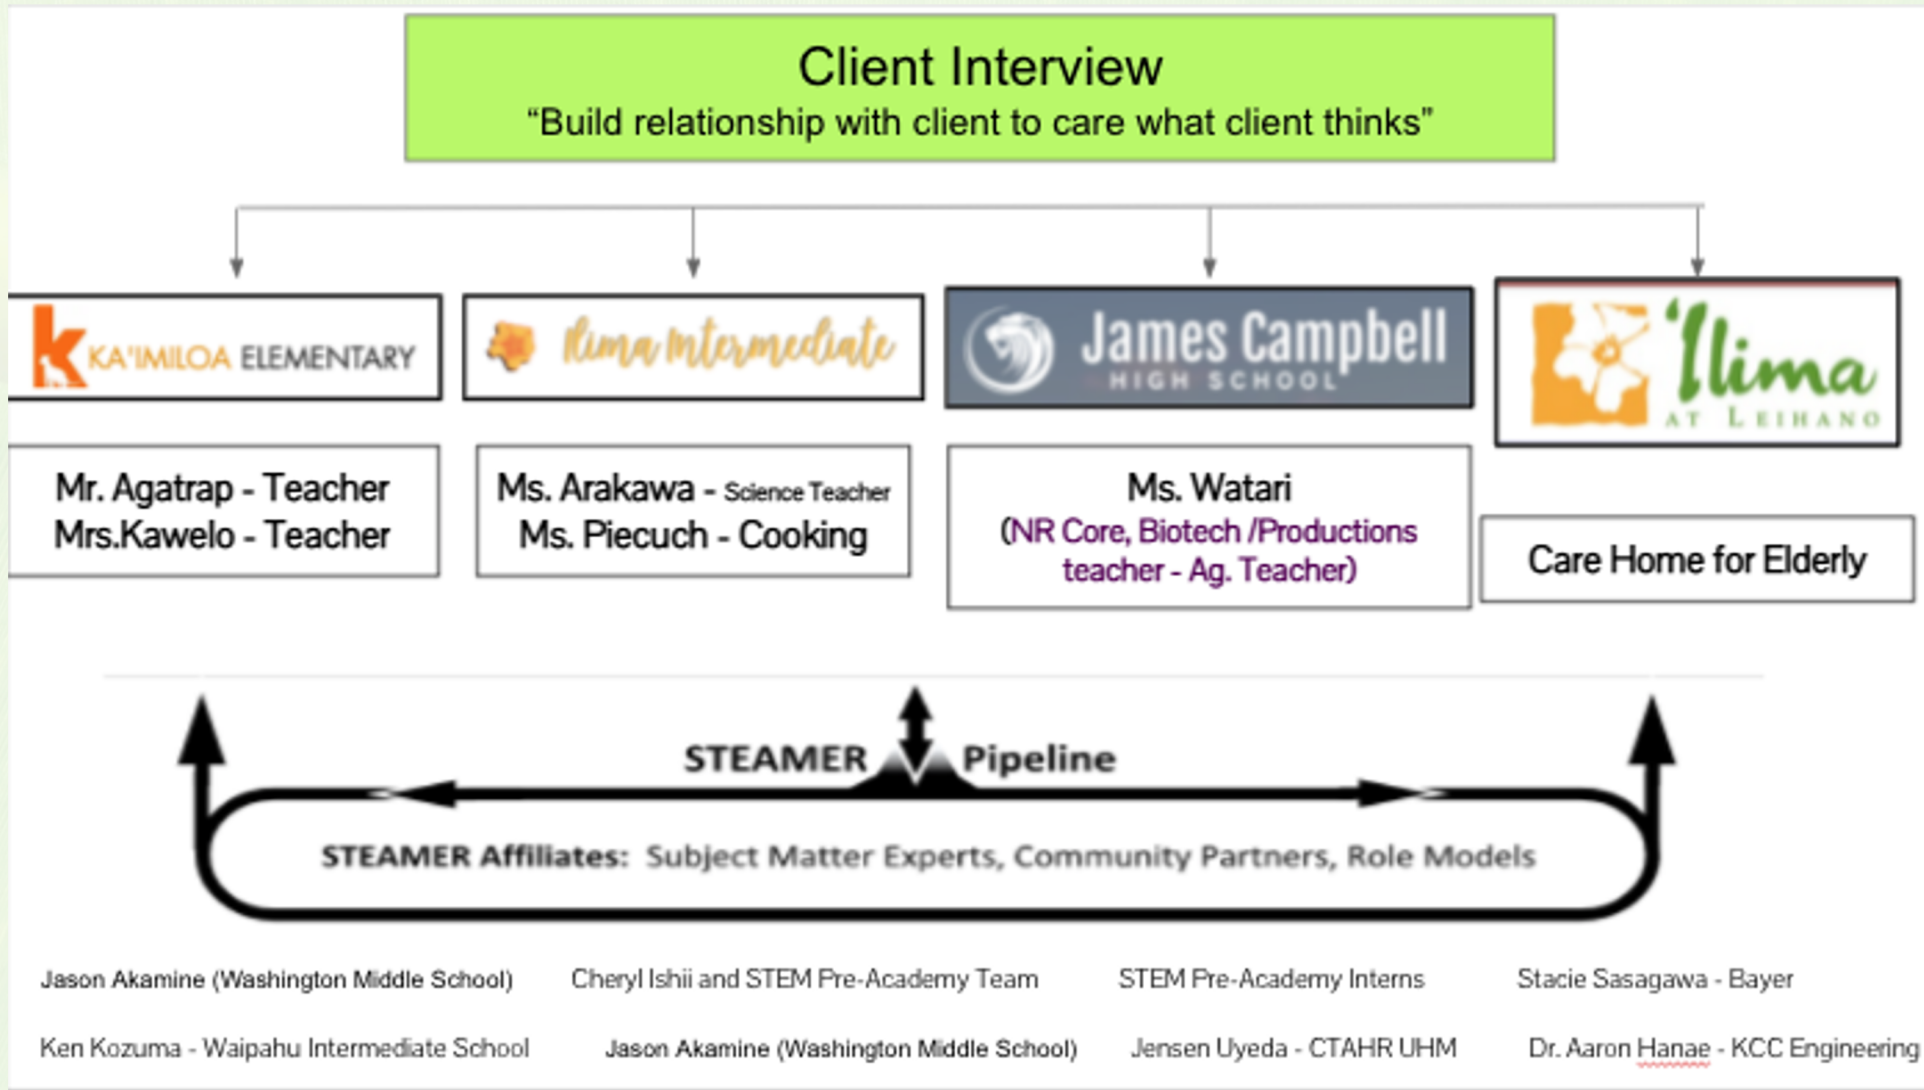

**Assisted Living for Residents**

# StoryBoard for Introductions

# PHASE 2: ASK STEP Oct 26-29, 2021

# PHASE 2: ASK STEP Oct 26-29, 2021

## Hydroponic Option for Teachers

**Select one option:**

- Each student group will work with you to create a prototype that will work for your classroom needs! The option that you choose can be modified to support your needs in the classroom.

**Option 1:  
Tabletop  
Hydroponics**

**Option 2:  
Mobile Cart (Blue  
Rubbermaid-Style): Mobile  
because it has locking wheels  
but not as transportable**

**Option 3:  
Portable Carts: Portable  
because the cart can fold up and  
stored or transported easily.**

**Option 4:  
Your own idea!**

Note: Sensors will not be included in the prototypes that you will receive. However, sensors can be borrowed from the STEM Pre-Academy.

# PHASE 2: ASK STEP Oct 26-29, 2021

|   | Option # |
|---|----------|
| <b>Kaimiloa Elementary School<br/>"Mr. Agatrap"</b> |          |
| <b>Kaimiloa Elementary School<br/>"Mrs. Kawelo"</b> |          |
| <b>Ilima Intermediate School<br/>"Ms. Arakawa"</b>  |          |
| <b>Ilima Intermediate School<br/>"Ms. Piecuch"</b>  |          |
| <b>James Campbell High School<br/>"Ms. Watari"</b>  |          |
| <b>Ilima Care Home</b>                              |          |

# PHASE 2: ASK STEP Oct 26-29, 2021

## Empathy

Empathy is the first step in design thinking because it is a skill that allows us to understand and share the same feelings that others feel. Through empathy, we are able to put ourselves in other people's shoes and connect with how they might be feeling about their situation.

Some questions to consider:

- What is the age group of your students?
- How many students are in your classroom?
- Are the students in your classroom active and constantly moving and touching everything?
- What makes your students excited each day?
- What does your layout of your classroom look like?

## Ask

Consider the customer's requests. Which criteria seem the most important to them? *(this will require you to interview your customer to find out more information)*

Possible Questions to Ask:

- Do you have a basic understanding of hydroponics? Kratky system?
  - If not, would you like a handbook on it?
- What is the average height of your students in your classroom?
- What are your plans for this system in your classroom? Are you planning on having students interacting with it or just a demonstration?
- What did you like about the option that you selected? What did you not like about it? What changes would you like to see?

# Phase 3: Imagine Step Nov 2-5, 2021

## *IMAGINE*

- Conduct some background research on the design option that your client selected.
- Use what you learned from your client (empathy and ask) to sketch your design, making sure to label your diagrams with materials for each component.

Insert Design Here

## Phase 4: Plan Step Nov 9-12, 2021

- Write out the steps for constructing your design with as much detail as possible. Remember to include measurements, shapes, and materials.
- Be sure to think through each step of the process. Which components will need to be built first?
- Evaluate your written plan. Would your teacher be able to construct your design based on your instructions?

# Phase 5: Create Step Nov 16-24, 2021

- Follow your written procedure to assemble your hydroponics system for your client.

# Phase 6: Improve Step Nov 30-Dec 17, 2021

- Show your system to the client.
- What recommendations does your client have to say about improving the system?
